TERMS AND CONDITIONS GOVERNING SALE

The lots listed in this catalogue will be offered and sold subject to the following terms and conditions.

1. The highest bidder acknowledged by the auctioneer shall be the buyer. In the event of any dispute between bidders, the auctioneer's determination shall be final.
2. New bidders who have not previously established credit must furnish satisfactory references well in advance of sale date, or send a deposit of 25% of their bids, applicable to purchases. Any portion of such deposit not used will be promptly refunded after sale. We reserve the right to require payment in full before delivery of merchandise.
3. We will execute your bids without charging a commission. These bids will be treated as limits. In general, we will start a lot at a small advance over the next to the highest bid. We can neither correct nor assume responsibility for any errors as to amount or lot numbers in bid sheets, so please recheck to make sure you have bid on the exact lots you want. We will not accept bids from minors.
4. California residents must pay state sales tax. Postage and insurance will be added to invoices for lots to be mailed to successful bidders. All lots sent registered mail. **Overseas buyers must furnish their own insurance.**
5. **All items in this sale are guaranteed genuine**, and as described in the catalogue. Claims to the contrary must be made within three days of receipt by the buyer. Lots may not be returned without our written permission. No lots purchased by floor buyers may be returned. **Title remains with Superior Stamp & Coin Co., Inc., until invoices are paid in full.**
6. Auction sales are strictly for cash and lots must be paid for immediately in U.S. funds.
7. Where estimates are given, they represent either the owner's idea of value or our professional opinion as to what they should bring. **IN ANY EVENT, THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER.** We recommend, however, if you want the lot, bid close to or over estimate. For some of the lots, we have indicated the number of known pieces and, in some cases, we have described certain coins as possibly the finest known. These descriptions are only the cataloguer's opinion, after much research.
8. The possibility exists that some lots could be misattributed and should this occur, mail bidders may return lots within three days of receipt. Floor bidders are urged to examine lots prior to bidding, since there are no return privileges for coins purchased on the floor.

NOTICE OF EXHIBITION

Lots will be on exhibit each day, starting September 1 through October 5 from 10 o'clock A.M. until 3:30 P.M. at our store—9301 Wilshire Boulevard, Beverly Hills, California. We recommend that you call or write for an appointment to view lots. Phone: (213) 272-0851 or 278-9740.

All photographs in this catalogue are of the actual lots being sold. You may bid generously with the assurance that you will buy the lots for less, if it is at all possible. Your bids are kept confidential and we will not disclose any mail bids. If you have any questions about this sale, please write or call us.

EXPLANATION OF VALUES

We estimate the value between \$100.00 and \$150.00 (\$100.00—\$150.00)
This lot should sell in excess of \$125.00 (\$125.00—UP)
We were unable to trace any prior sale for a similar specimen and thus are unable to estimate value. ()
IN ANY EVENT, THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER.

FOR NEW MAIL BIDDERS

If you have never before bid by mail, an explanation is needed. Basically, the procedure is quite simple. You will notice on the enclosed Mail Bid Form a place for entering the Lot Number as well as the amount you wish to bid. After carefully reading the description of the Lot in question, simply write down the Lot Number and the maximum amount you are willing to pay in the appropriate columns. For example, let's assume you are interested in bidding on Lot No. 145. Determine the maximum price you will pay for this Lot and enter this amount on the Mail Bid Form as follows:

Lot	Bid	Lot	Bid
145	90.00		

You will note we have used the term "maximum amount" above. The bid which you enter is the "maximum amount" or top price you will pay for a lot (unless you have checked one of the increase boxes). However, there is always the chance you may obtain the Lot for less! As indicated in our "Terms and Conditions Governing Sale," we act as your agent and execute your bids as if you were there in person at the Sale. We will buy the Lot for you as cheaply as possible over the next highest bid. In other words, if your bid, for example, is \$90.00 on Lot No. 145, and the next highest bid, whether by mail or floor, is only \$70.00, the Lot would be awarded to you at \$75.00, or a nominal 5% to 10% increase over the next highest bid.

Before entering your bids, please read carefully our "TERMS AND CONDITIONS GOVERNING SALE." Bidding by mail permits the individual to participate in the auction sale just as though he were able to attend the Sale in person. Many rarities are obtained through the medium of auction sales, and it can be a very exciting as well as a rewarding method of obtaining wonderful items for your collection. We look forward to your participation in our Sales.

Thank you,

FRACTIONAL CURRENCY

Fractional Currency is a very important part of numismatics. Due to the problems created by the Civil War (1861 to 1865), there became a "hard money" problem in this country. On July 17, 1862, President Lincoln signed the law that adopted postage stamps as currency. Due to the shortage of postage stamps which was caused by this new act, Postmaster General Blair and Commissioner of Internal Revenue Boutwell settled the problems when they decided to print special stamps for the Treasury. These stamps were issued in sizes more convenient to handle than the regular size postage stamps and of course were left without gum on the backs. On March 3, 1863, the government provided a new law that would permit the printing of fractional notes.

In 1962, the Treasury Department stated that less than one half of one percent of the amount of fractional currency issued was still outstanding.

UNITED STATES COINAGE

U.S. COLONIAL COINS

- 130 1652 Pine Tree Shilling, small planchet. Very Good 8. Other than normal wear, this example is free from the defects that seem to plague so many Pine Tree Shillings. PHOTO (\$300.00—\$400.00)

THE EXTREMELY RARE SILVER 15 SOLS OF 1670

- 131 FRENCH COLONIES. Louis XIV, 1643-1715. 15 Sols, 1670-A. Paris mint. Fine 15. Laureate and draped bust right. Rev: Crowned Arms. Differents: Sun=Pierre Cheval, Commissioner; Tower=Jean-Baptiste Dufour, Engraver. Ciani 2064; Mazard 1; Charlton 1; BR-501; Red Book, pg. 28, of which this specimen is the actual plate coin. To the best of our knowledge, only 3 specimens have appeared on the numismatic market in the past 35 years, within the United States. The Fred Baldwin specimen was sold by New Netherlands Coin Co. April 22, 1960. It appeared again in Stack's auction November 12, 1974 where it realized \$16,000.00 in about Very Fine condition. The Count Ferrari specimen was sold in the 1964 A.N.A. auction and was catalogued as possibly being the finest known, (Extremely Fine/Very Fine), and realized \$4,100.00. The specimen was purchased by J. Guy Clements who later consigned it to auction in March of 1976 where it realized \$10,000.00. We are extremely proud to offer the third specimen which was purchased by the consignor from a well known Canadian collector. This specimen, like the two mentioned above, displays normal signs of wear and weakly struck centers which appear to be characteristic of the type. A few light scratches and digs in the fields, but not displeasing. A conservatively graded Fine coin which we are certain will be a major highlight of this sale. A.N.A. certificate will accompany this lot. PHOTO. (\$10,000.00—\$15,000.00)

HALF CENTS

- 950 132 1793. G-1, C-3. Very Good 10 with a fully struck up reverse and an even light chocolate brown patina. One light scratch from the rim across the bust to the numerals and a few minor edge nicks. No serious defects and a pleasing example of our first half cent. PHOTO (\$500.00—\$750.00)

1795. Gilbert 5. From our Charles Ruby Part I sale, lot 196 and described: Overstruck on a copper trial piece of a 1795 half dollar, Beistle 11-P = Overton 117 (one of the earliest varieties of the year, having a reverse first used in 1794). LIBERTY and 8th star (left of L) show at upper obverse, parts of UNITED and wreath on reverse, enough to make the attribution absolutely beyond question. Very Good/Almost Fine, chocolate brown, granular but attractive surfaces. Attributed by Walter Breen around 1954 in settlement of a controversy over the identity of the undertype. *Unique*, though one other similar piece is known struck on a copper trial piece of a 1794 half dollar. At present, no other copper trial piece of a half dollar of 1795 is known to exist. Listed as Judd 22. It is unlikely that more than one trial piece was made from any one pair of dies, and it is a miracle that one of these should have survived even in this form. In a custom plastic holder. Realized \$1550.00. PHOTO..... (\$1250.00—\$1750.00)

134

135

1797. Gilbert 3, overstruck on 1797 cent, Sheldon 128, which overstrike was about 75% off center so that RIC and border show nothing else, and nothing on the obverse. The undertype can be identified with certainty as only this reverse (1797 H) has the letters RIC positioned in exactly this way, and this is from the earliest state before the defect at I of AMERICA developed. The half cent is from an early state of dies, without the reverse crack. Overall Very Good or better in sharpness, obverse porous, reverse darker and with light uniform roughness. Unusual overstrike, the more so in that the undertype is attributable. We have no explanation for the absence of undertype on the obverse unless a second blank was already in the press when this offcenter blank was fed into it, which would explain everything. In a custom plastic holder. From our Charles Ruby Part I sale, lot 1987 and realized \$400.00. PHOTO..... (\$350.00—\$450.00)

1797. G-4, C-1. Plain edge. Struck on a Talbot Allum & Lee planchet. Fine 15. Late die state showing all prominent die cracks. Medium glossy brown with some weakness on the reverse obliterating the last letters in AMERICA; numerous fine scratches around the date. PHOTO..... (\$100.00—\$150.00)

- 1449 Billon tetradrachm of Alexandria, Egypt, Year 5. Diademed and draped bust right. Reverse: Homonoia standing left, wearing stephane, right arm raised; in left hand, double cornucopiae. BMC-2400. Ex Consul Weber collection, Munich, Jacob Hirsch, 1908, lot 4610. Obtained by Edward Gans in the late 1940's from an English collector and sold by him to Leo H. Johnson who published a small pamphlet entitled "Historical Sketch of Zenobia Queen of Palmyra. One of the World's Foremost Women." Accompanying the coin is a billon antoninianus of Aurelian (RIC-135) and an Alexandrian billon tetradrachm of Aurelian (BMC-2369). Mr. Johnson had obtained some photographs of the present day site of Palmyra showing the extensive ruins of this once beautiful city. These photos and the three coins were mounted in a heavy plastic case. Also included. It might be interesting to note that an ancient tradition refers to Zenobia as having been Jewish. She is mentioned in the Talmud as having protected the rabbis in Palmyra (Talm. Jer. Ter. viii, 46b). The Zenobia coin is both well struck and well centered, although the flan is slightly irregular. The portrait is well above the average for the Alexandrine tetradrachms. The only similar coin that could be traced in the last 10-15 years was the T.O. Mabbott specimen which was the type of BMC-2398 but in much lower grade. The rarity of this coin can be compared to that of the Roman antoninianus of Zenobia which was sold in our June 1975 sale for \$10,000.00. Although this coin will probably not reach that exalted plateau, it should realize well into four figures. Choice Very Fine. PHOTO (\$2500.00—UP)
